WORK EXPERIENCE

Web Design & Developer Intern
Sept 2023 - Dec 2023

UCSI University, Group Corporate Affairs

During my internship at UCSI University, I focused on website design, development, and maintenance. I was responsible for revamping existing websites, ensuring they were responsive, visually appealing, and user-friendly to enhance user experience. This internship also provided me with hands-on experience in ASP.NET and backend database connectivity, allowing me to understand how web applications interact with databases. I collaborated with senior developers to improve website functionality and ensure seamless performance. Through this experience, I strengthened my problem-solving skills, adaptability, and ability to work in a fast-paced environment, preparing me for future roles in web development.

Web Team Leader
Jan 2024 - Jan 2025

Youth Beyond Boundaries

As the Web Team Leader at Youth Beyond Boundaries, I was responsible for strategizing the overall direction of the website to align with the organization's publicity goals. I guided team members in achieving the website's objectives, ensuring effective content management and SEO optimization for better visibility. This role enhanced my team communication and collaboration skills, as I actively listened to members' input and fostered a productive working environment to achieve our shared goals.

ABOUT ME

I am passionate about solving coding challenges and exploring new technologies. I enjoy applying my technical skills and problem-solving abilities in a dynamic environment to build innovative and user-friendly applications.
